CI Contracts Process
## with **Relativity**® and **docusign**™

Contract analytics and eDiscovery converge in the industry's first end-to-end contract analytics and review platform leveraging the most advanced AI technologies in the industry.

EXPEDITE LARGE-SCALE CONTRACT REVIEW WITH CI CONTRACTS

CI Contracts combines Relativity's strength as a large-scale legal document review platform with the analytics built into DocuSign Insight. In the CI Contracts process, contract portfolios undergo search, deduplication, analysis, key data extraction and review, culminating in a report for analysis, reducing time, resources, and costs typically associated with large-scale contract review.

Relativity® **docusign**™

SEARCH AND DEDUPE — ANALYZE — EXTRACT — REVIEW AND COMPARE — REPORT

Artificial intelligence and hands-on legal and contracts expertise come together with CI Contracts.
We leverage proven technologies, methodologies, and custom analytics to reduce the documents that require eyes-on review, helping you find and analyze contracts faster, with increased accuracy and efficiency.

We combine Relativity, a leader in large-scale document review technology with DocuSign Insight, a leader in contract analytics to deliver an expedited contract portfolio assessment. By harnessing Relativity and DocuSign, CI Contracts significantly diminishes the workforce and hours needed for projects, optimizing the advantages and functionality of the software. Our attorney-led, technology driven solutions distill complexity and quickly surface the data that matters most, empowering you to streamline multiple use cases. The most prominent use cases include:

REGULATORY
- RESPONDING TO REGULATORY REQUESTS ARISING FROM CRISES SUCH AS BANK FAILURES

CYBERSECURITY
- DATA PROTECTION and DATA BREACH PREPARATION and RESPONSE

MERGERS & ACQUISITIONS
- DUE DILIGENCE, POST MERGER INTEGRATIONS, and DIVESTITURES

DATA MIGRATION
- DATA PREPARATION and DATA EXTRACTION FOR CLM

We are the contract AI experts.

Large-scale contract reviews often involve unorganized, unknown, and massive datasets. You may not know what provisions you have in your contracts or what you may need extracted from a contract. With CI Contracts, you can extract data points for various use cases, by clauses, by industry vertical, agreement type, no matter the regulatory or business requirement or scope.

Best-of-breed technologies converge with CI Contracts

Purpose built for a wide range of use cases, including M&A projects and regulatory requests, CI Contracts integrates RelativityOne with the leading contract analytics tool, DocuSign Insight. Our experts utilize RelativityOne to first ingest your contracts for baseline searching and culling. Then, we extract the target contract population and load them into Insight, where custom AI models can analyze and extract hundreds of clauses or key data points, resulting in a custom analysis report and/or RelativityOne workspace to further attorney review.

Manage large-scale contract reviews without requiring a huge investment in additional resources and technology. CI Contracts can review and analyze thousands of contracts quickly surfacing key data.
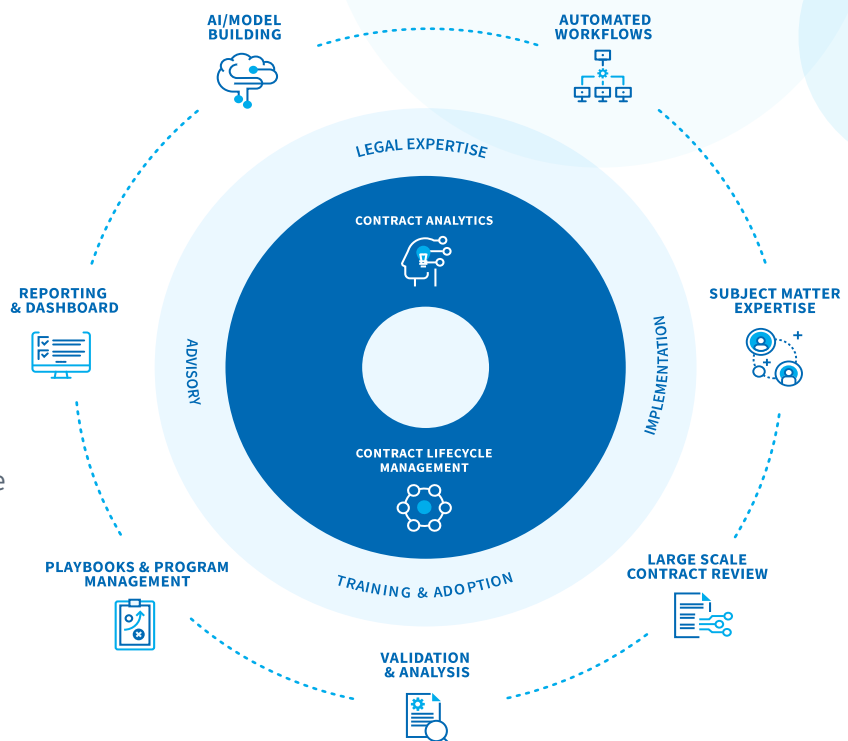

STREAMLINE & AUTOMATE PROCESSES

Using analytics to develop more efficient and cost-effective workflows, we can automate processes that extract, analyze, and normalize data from volumes of contracts and quickly deliver an analysis that would take weeks to complete with manual review.

GAIN TRANSPARENCY & VISIBILITY

By applying advanced technology and subject matter expertise to identify a wide range of issues and provide visibility into critical contractual information, we can help you reduce risk and exposure.

EXTRACT CRITICAL DATA

With AI-powered technology, we can build models to find specific content and clauses within hidden, obscure, and complex contractual data and increase the accuracy of the information extracted from each contract.
