Configure, price, and quote. It's that simple.

Boost profitability and efficiency with our seamless integration for Salesforce CPQ, which allows all contract stakeholders to manage the contracting process from quote to signature all within your familiar Salesforce CLM environment, eliminating obstacles and the need for multiple platforms.
Sell smarter

Eliminate manual entry, errors, and out-of-date information with CLM, allowing sales users or other contract stakeholders to store, manage and access contracts anywhere, anytime.

Sell faster

Empower your sales teams to seamlessly navigate the entire contracting process within Salesforce, ensuring a streamlined experience. Meanwhile, enable other stakeholders like Legal to effortlessly review, edit, and approve contracts without the need for Salesforce access.

Sell safer

Increase the visibility into your agreements by integrating CPQ with your CLM. This pairing not only provides enhanced insight but also incorporates built-in controls to ensure accuracy and compliance with your business policies.

We make the best technologies better.
