

Procurement

Vendor Agreement Transparency

An agile process model built on the DocuSign Agreement Cloud to manage and monitor the flow

SIMPLIFY YOUR SYSTEM & EMPOWER YOUR PEOPLE

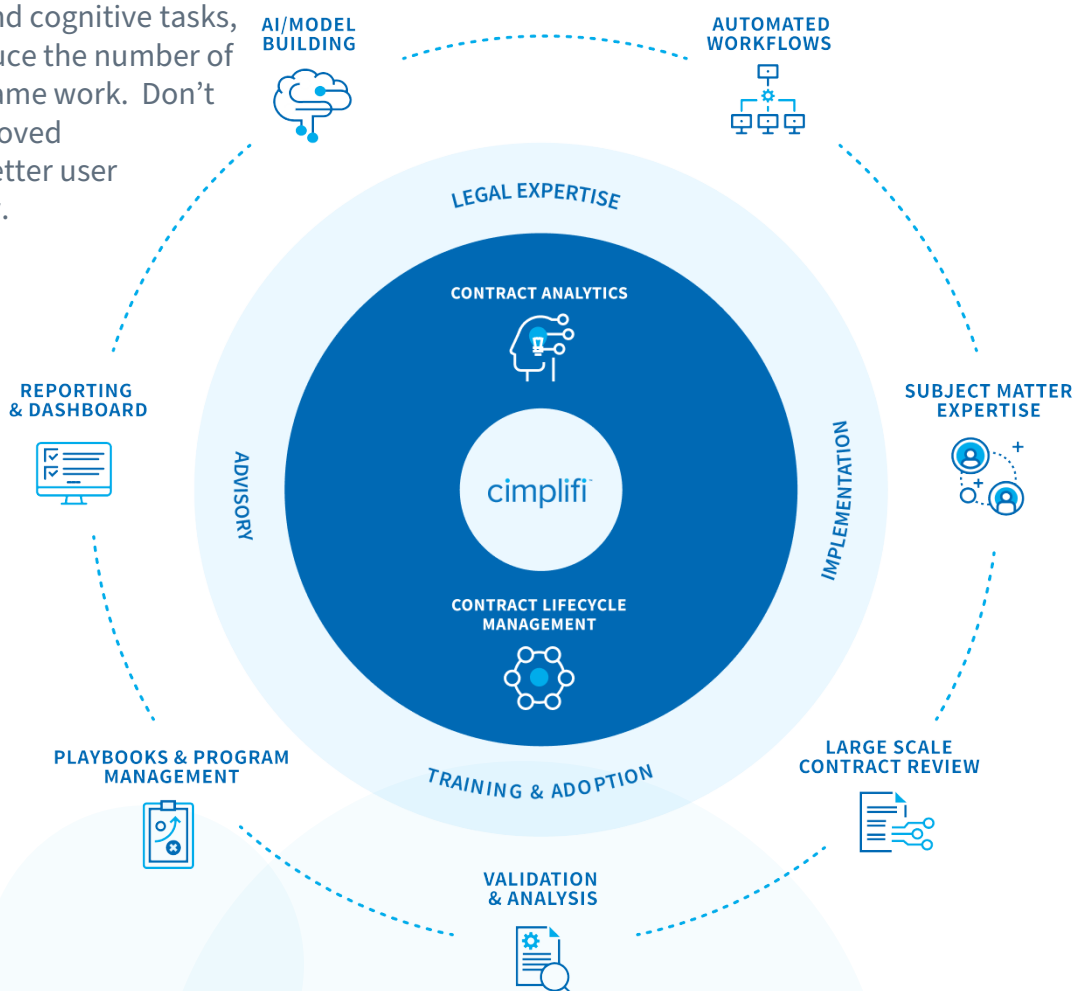

Leveraging dedicated consultants with experience implementing DocuSign products, clients can expect a more efficient standing up of their enterprise solution resulting in benefits from the technology being enjoyed quicker.

REALIZE INCREASED ROI FASTER

Increase hard ROI from several sources: Time Savings, Productivity Increase, Cost Savings. Automate repetitive manual and cognitive tasks, enhance decision making, reduce the number of employees needed to do the same work. Don't overlook the soft returns, improved personalization will create a better user experience and increase agility.

SME EXPERTISE

Cimplifi is a full-service, accredited DocuSign Agreement Cloud platinum partner focused on Insight, CLM, and CLM+. With over 15 years of combined experience in contract analytics, our consultants have delivered end-to-end implementations of the Agreement Cloud across a range of industries from Finance to Entertainment.

Key Insights to be drawn from Procurement Documentation

- **Proprietary & Confidential Info**
Ownership of foundational materials and resulting work product, attendant rights, as well as obligations to safeguard that information and those rights
- **Payment Schedules**
- **Changes in Scope & Deliverables**
Exceptions and mechanisms for addressing changes that likely to occur given the nature of the services performed
- **Termination & Remedies**
Events under which termination of the agreement can occur and remedies via monetary or equitable relief
- **Disclaimers & Indemnification**
Affect a party's ability to bring a claim, show liability, and prove damages that can be recovered
E.G. Limitation of Liability
- **Liability Cap Or Basket**
Aggrieved party recovers damages, but only up to the agreed 'Cap' OR 'Baskets' which protect a party by providing a dollar threshold that aggregate losses must meet before it is liable
